

Quality Policy

Introduction

ArcelorMittal Kent Wire Limited & ArcelorMittal Construction Solutions operate a modern steel reinforcement plant that produces a wide range of reinforcement products to meet today's customer demands in the marketplace. This document is the company's policy governing quality management.

Objectives

It is the established objective of the Company to provide its clients with reinforcing steel products which comply in all respects with their agreed requirements, and which integrate with their stated expectations and needs.

The Company implements its quality objectives through the operation of a quality assurance system in compliance with:

- a) BS EN ISO 9001:2015.
- b) ArcelorMittal Kent Wire - CARES Steel for Reinforcement Manual (SRC) appendixes 2, 3 and 4.
- c) ArcelorMittal Construction Solutions - CARES Steel for Reinforcement Manual (SRC) appendixes 2, 8, 11 and 12.

Quality Systems

The Integrated Management System includes quality management objectives, policies, organisation and procedures associated with all relevant Company activities.

The Company ensures that all employees are aware of and have knowledge of the quality system.

The Company operates a policy of continuous quality improvement which relates to the personnel, materials, equipment and systems employed within the company.

The key aims of the quality-based sections of the IMS is the promotion of customer focus and risk-based thinking throughout the business.

This policy is integrated with the operation of the quality system and applies to internal processes as well as externally provided products.

As part of this quality policy, the Quality Manager has the responsibility and authority to develop, co-ordinate and monitor the implementation and effectiveness of the company quality system.

The above quality policy is reviewed regularly and endorsed by the Management Team.

The success of this policy requires the involvement and commitment of everyone working for and with us.
